

Marine Service

Improvements for the Northern Territory

The Bureau of Meteorology is progressively upgrading its forecast system to provide more detailed forecasts across Australia.

From the end of October 2014, new and improved marine forecast services will be provided in the Northern Territory.

Changes to services are detailed below. The services for the Northern Territory may be accessed online at www.bom.gov.au/nt/forecasts

Coastal Waters Forecasts

- Increase the number of coastal waters forecast zones from 5 to 6 to better describe wind conditions across the Territory.
- Seas and swell forecasts up to four days ahead.
- An improved layout for easier reading including forecasts for thunderstorms or fog over marine zones.
