

## CORRIGENDA

(i) In Australian Meteorological Magazine No. 28, in the article "Further work on Minimum temperature prediction in fruit-growing areas of South Australia" by L.G. Veitch, please make the following corrections:

p.20 Table 2

In the 6th row (commencing 1956 SD) and 6th column (headed  $b_4$ ) read  $\pm 0.0037$  for  $\pm 0.0036$

In the 8th row (commencing  $b_s$ ) and 6th column (headed  $b_4$ ) read 0.0087 for 0.0037

In the 16th row (commencing  $\dagger$  on 206 d.f) and 3rd column (headed  $b_1$ ) read 16.8\*\*\* instead of 16.8

p.29 under REFERENCES should be included:

Sutton, O.G.                    1953                    Micrometeorology. McGraw Hill.

-----

(ii) Also in Australian Meteorological Magazine No. 28, in the letter of reply by A. Garriock on "Vertical Motion in a Jet Stream" please make the following correction:

p.48 line 19 - replace "air-value" by "curvature"
