

Indexes – Volume 52

Subject Index

- A comparison of pump efficiency corrections for the Australian Brewer-Mast ozonesonde data record, 259
- A numerical modelling study of storm surges in Bass Strait, 143
- Antarctic ozone hole, Three-dimensional simulations of springtime dissipation of the, 1
- Australian Air Quality Forecasting System, The use of long-range transport simulations to verify the, 229
- Bass Strait, A numerical modelling study of storm surges in, 143
- Book reviews**
- Atmospheric Modeling, Data Assimilation and Predictability, 227
- Coastal Management in Australia, 227
- Global-Regional Linkages in the Earth System, 281
- Severe Convective Storms, 147
- Spectral Imaging of the Atmosphere, 282
- Storm Watchers: The Turbulent History of Weather Prediction from Franklin's Kite to El Niño, 281
- Brewer-Mast ozonesonde data record, A comparison of pump efficiency corrections for the Australian, 259
- climate summary southern hemisphere (autumn 2002): onset of El Niño conditions, Seasonal, 127
- climate summary southern hemisphere (spring 2002): the El Niño reaches maturity and dry conditions dominate Australia, Seasonal, 213
- climate summary southern hemisphere (summer 2001/02): a continuation of near-normal conditions in the tropical Pacific, Seasonal, 63
- climate summary southern hemisphere (summer 2002/03): El Niño begins its decline, Seasonal, 265
- climate summary southern hemisphere (winter 2002): consolidation of El Niño conditions in the Pacific, 203
- Climatology of cold outbreaks with snow over Tasmania, Seasonal, 157
- Coffs Harbour catchment, Prediction of extreme rainfall for the, 95
- cold outbreaks with snow over Tasmania, Climatology of, 157
- El Niño begins its decline, Seasonal climate summary southern hemisphere (spring 2002): the, 265
- El Niño conditions, Seasonal climate summary southern hemisphere (autumn 2002): onset of, 127
- El Niño conditions in the Pacific, Seasonal climate summary southern hemisphere (winter 2002): consolidation of, 203
- El Niño reaches maturity and dry conditions dominate Australia, Seasonal climate summary southern hemisphere (spring 2002): the, 213
- Evaluation of quantitative precipitation forecasts over southern South America, 81
- forecasting techniques to describe the surface winds in Sydney Harbour, Statistical, 101
- forecasts over southern South America, Evaluation of quantitative precipitation, 81
- Gravity waves observed in temperature, wind and ozone data over Macquarie Island, 11
- history of PAOBs in the Australian Bureau of Meteorology, The, 241
- Hobart Airport, Processes leading to a severe wind-shear incident at, 171
- Hydrometeor classification with a C-band polarimetric radar, 23
- Macquarie Island, Gravity waves observed in temperature, wind and ozone data over, 11
- model performance summary January to June 2003, Numerical weather prediction, 277
- model performance summary July to September 2002, Numerical weather prediction, 73
- model performance summary October to December 2002, Numerical weather prediction, 137
- New Zealand Southern Alps Experiment (SALPEX), Two southerly changes observed during the, 251
- numerical modelling study of storm surges in Bass Strait, A, 143
- Numerical weather prediction model performance summary January to June 2003, 277
- Numerical weather prediction model performance summary July to September 2002, 73
- Numerical weather prediction model performance summary October to December 2002, 137
- ozone hole, Three-dimensional simulations of springtime dissipation of the Antarctic, 1
- ozonesonde data record, A comparison of pump efficiency corrections for the Australian Brewer-Mast, 259

- PAOBs in the Australian Bureau of Meteorology, The history of, 241
- precipitation forecasts over southern South America, Evaluation of quantitative, 81
- Prediction of extreme rainfall for the Coffs Harbour catchment, 95
- prediction model performance summary January to June 2003, Numerical weather, 277
- prediction model performance summary July to September 2002, Numerical weather, 73
- prediction model performance summary October to December 2002, Numerical weather, 137
- Processes leading to a severe wind-shear incident at Hobart Airport, 171
- quantitative precipitation forecasts over southern South America, Evaluation of, 81
- radar, Hydrometeor classification with a C-band polarimetric, 23
- rainfall for the Coffs Harbour catchment, Prediction of extreme, 95
- Seasonal climate summary southern hemisphere (autumn 2002): onset of El Niño conditions, 127
- Seasonal climate summary southern hemisphere (spring 2002): the El Niño reaches maturity and dry conditions dominate Australia, 213
- Seasonal climate summary southern hemisphere (summer 2001/02): a continuation of near-normal conditions in the tropical Pacific, 63
- Seasonal climate summary southern hemisphere (summer 2002/03): El Niño begins its decline, 265
- Seasonal climate summary southern hemisphere (winter 2002): consolidation of El Niño conditions in the Pacific, 203
- snow over Tasmania, Climatology of cold outbreaks with, 157
- South America, Evaluation of quantitative precipitation forecasts over southern, 81
- Statistical forecasting techniques to describe the surface winds in Sydney Harbour, 101
- Statistical prediction of sea breezes in Sydney Harbour, 117
- storm surges in Bass Strait, A numerical modelling study of, 143
- Sydney Harbour, Statistical forecasting techniques to describe the surface winds in, 101
- Sydney Harbour, Statistical prediction of sea breezes in, 117
- Tasmania, Climatology of cold outbreaks with snow over, 157
- The history of PAOBs in the Australian Bureau of Meteorology, 241
- The tropical circulation in the Australian/Asian region - May to October 2002, 189
- The tropical circulation in the Australian/Asian region - November 2001 to April 2002, 49
- The South Pacific and southeast Indian Ocean tropical cyclone season 2000-01, 33
- The use of long-range transport simulations to verify the Australian Air Quality Forecasting System, 229
- Three-dimensional simulations of springtime dissipation of the Antarctic ozone hole, 1
- Two southerly changes observed during the New Zealand Southern Alps Experiment (SALPEX), 251
- wind-shear incident at Hobart Airport, Processes leading to a severe, 171
- winds in Sydney Harbour, Statistical forecasting techniques to describe the surface, 101
