

Indexes – Volume 53

Subject index

- aerodynamic roughness length and displacement height of an urban surface from single-level sonic anemometer data, Estimation of, 21
- An assessment of recent trends in Australian rainfall, 163
- atmospheric motion vectors, Error characterisation of, 123
- Book reviews**
- An Introduction to Environmental Chemistry, 2nd Edition, 233
- Atmospheric Pollution: History, Science and Regulation, 70
- Climate Affairs: a Primer, 71
- Climate Change: A Natural Hazard, 329
- Encyclopedia of Antarctica and the Southern Oceans, 69
- Forecast Verification. A Practitioner's Guide in Atmospheric Sciences, 235
- Handbook of Atmospheric Sciences Principles and Applications, 234
- Handbook of Weather, Climate, and Water: Atmospheric Chemistry, Hydrology, and Societal Impacts, 146
- High Tide: News From a Warming World, 325
- Paleoclimate, Global Change and the Future, 145
- Waves in the Ocean and Atmosphere: Introduction to Wave Dynamics, 147
- bulk explicit microphysics scheme, Indicators of convection derived from a, 149
- climate change?, Delayed breeding in Little Penguins – evidence of, 13
- convection derived from a bulk explicit microphysics scheme, Indicators of, 149
- Delayed breeding in Little Penguins – evidence of climate change?, 13
- dispersion meteorology in the Pilbara region, Observations and modelling of, 175
- Effects of changes in algorithms used for the calculation of Australian mean temperature, 1
- Error characterisation of atmospheric motion vectors, 123
- Estimates of lightning ground flash density in Australia and its relationship to thunder-days, 189
- Estimation of aerodynamic roughness length and displacement height of an urban surface from single-level sonic anemometer data, 21
- Fictitious pressure gradients arising from reductions to sea level over central Australia, 103
- Indicators of convection derived from a bulk explicit microphysics scheme, 149
- inland water in Australia, The rainfall response to permanent, 251
- Kalgoorlie region, Verification of TAPM meteorological predictions using sodar data in the, 29
- lightning ground flash density in Australia and its relationship to thunder-days, Estimates of, 189
- New South Wales, 20th century changes in temperature and rainfall in, 263
- Numerical weather prediction model performance summary July to September 2003, 65
- Numerical weather prediction model performance summary October to December 2003, 319
- Observations and modelling of dispersion meteorology in the Pilbara region, 175
- Penguins – evidence of climate change?, Delayed breeding in Little, 13
- Pilbara region, Observations and modelling of dispersion meteorology in the, 175
- planetary boundary layer, capped by an inversion: extension to baroclinic and stable conditions, The, 95
- pressure gradients arising from reductions to sea level over central Australia, Fictitious, 103
- rainfall, An assessment of recent trends in Australian, 163
- rainfall response to permanent inland water in Australia, The, 251
- Seasonal climate summary southern hemisphere (autumn 2003): demise of the 2002/03 El Niño event, 53
- Seasonal climate summary southern hemisphere (spring 2003): neutral conditions remain in the tropical Pacific, but dry conditions dominate northeast Australia, 217
- Seasonal climate summary southern hemisphere (summer 2003/04): a warm summer in the east and wet conditions, 305
- Seasonal climate summary southern hemisphere

(winter 2003): a warm season with an exceptionally wet August, 133

Seasonal and latitudinal variations of lightning ground flash activity in Australia, 197

Shorter contributions

The contribution of GOES-9 to operational NWP forecast skill in the Australian region, 279

TAPM meteorological predictions using sodar data in the Kalgoorlie region, Verification of, 29
temperature dataset, Updating Australia's high-quality annual, 75

temperature, Effects of changes in algorithms used for the calculation of Australian mean, 1

The planetary boundary layer, capped by an inversion: extension to baroclinic and stable conditions, 95

The rainfall response to permanent inland water in Australia, 251

The South Pacific and southeast Indian Ocean tropical cyclone season 2001-02, 285

The tropical circulation in the Australian/Asian region - May to October 2003, 205

The tropical circulation in the Australian/Asian region - November 2002 to April 2003, 39

thunder-days, Estimates of lightning ground flash density in Australia and its relationship to, 189

tornado threat-area forecasts from mesoscale NWP and a probabilistic forecast product, Verification of operational cool-season, 269

20th century changes in temperature and rainfall in New South Wales, 263

Updating Australia's high-quality annual temperature dataset, 75

UV Index and UV dose distributions for Australia (1997-2001), 239

Verification of TAPM meteorological predictions using sodar data in the Kalgoorlie region, 29

Verification of operational cool-season tornado threat-area forecasts from mesoscale NWP and a probabilistic forecast product, 269
