- Section headings (Abstract, Introduction, Results, References, etc.):

Main section headings are bold, upper and lower case, 14 point, flush left, Helvetica or Arial

- Tables: Embed any tables at the most appropriate location within the body of the text, similar to figures. Use 9 point for the body of the table and 11 point (Helvetica or Arial) for the Table title; this should be set above the Table and read: Table m: <descriptive table caption>.
- Citation style: when citing other work within the body of the paper, use, e.g. (Smith and Jones 1996) or Wilson (1985). If there are three or more authors of a paper, use, e.g. Johnson et al. (1977) or (Johnson et al. 1977) as appropriate.

References

- Abramson, D.L., Jones, M.D. and O'Flaherty, F.X. 1995. Observations and meso-modelling of condensation nuclei distribution. *Aust. Met. Mag.*, 56, 123-144.
- Gary, M.N. and Smith, S.N. 1977. Ozone and hydroxyl radical inter-comparison measurements. *J. Phys. Res.*, 123, 1124-45.
