Figure 1 consists of two parts. On the left is a wind rose diagram with eight directions labeled: N, NE, E, SE, S, SW, W, and NW. The center of the diagram is labeled 'CALM'. The length of the petals represents the frequency of wind from that direction. On the right is a horizontal color-coded scale for wind speed in km/h. The scale is divided into five segments: a thin light orange segment for '>= 0 and < 10', a medium orange segment for '>= 10 and < 20', a dark orange segment for '>= 20 and < 30', a brown segment for '>= 30 and < 40', and a dark brown segment for '>= 40'. The word 'CALM' is written above the first segment, and 'km/h' is written above the second segment.

Calm 9%
