Total				32.0																	

Observations were drawn from Noarlunga (station 023885)

The nearest cloud, pressure, daily evaporation and sunshine observations are taken at Adelaide Airport about 25 kilometres to the north. In most situations these will give a reasonable guide to conditions at Noarlunga but note that evaporation is affected by cloud cover, relative humidity, temperature and wind strength during the day, and sunshine hours are affected by cloud cover.
