Total				48.8																	

Observations were drawn from Padthaway South (station 026100)

The closest site reporting pressure is Naracoorte, about 35 kilometres to the southeast. Cloud and evaporation observations are available from Coonawarra. In general these will give a good indication of conditions around Padthaway but it should be noted that evaporation is affected by cloud cover, relative humidity, temperature and wind strength during the day. No current sunshine data is available for Padthaway. See climate maps for average conditions.
