Temperature, humidity, wind and rainfall observations are from Cressy (Brumbys Creek) (station 091375). Pressure and cloud observations are from Launceston Airport (station 091311)

Launceston Airport is about 23 kilometres northeast of Cressy, and the conditions will often be quite different. The Launceston Airport data are included as a guide only. Some cloud observations are from automated equipment; these are somewhat different to those made by a human observer and may not appear every day.
