

MJO Phase 1

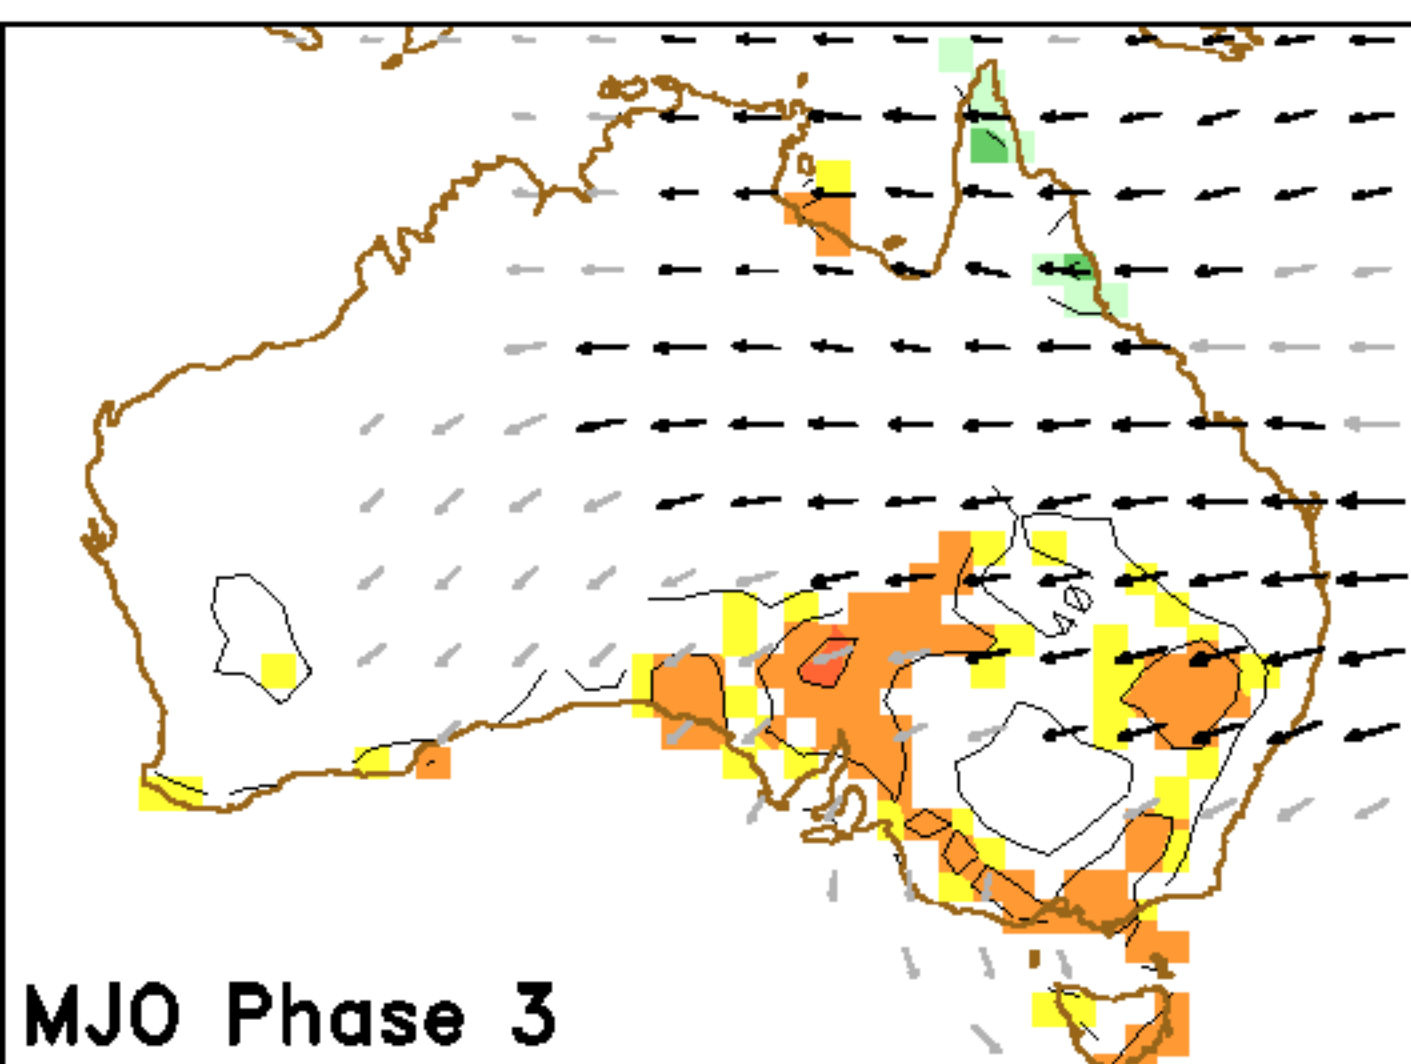

MJO Phase 5

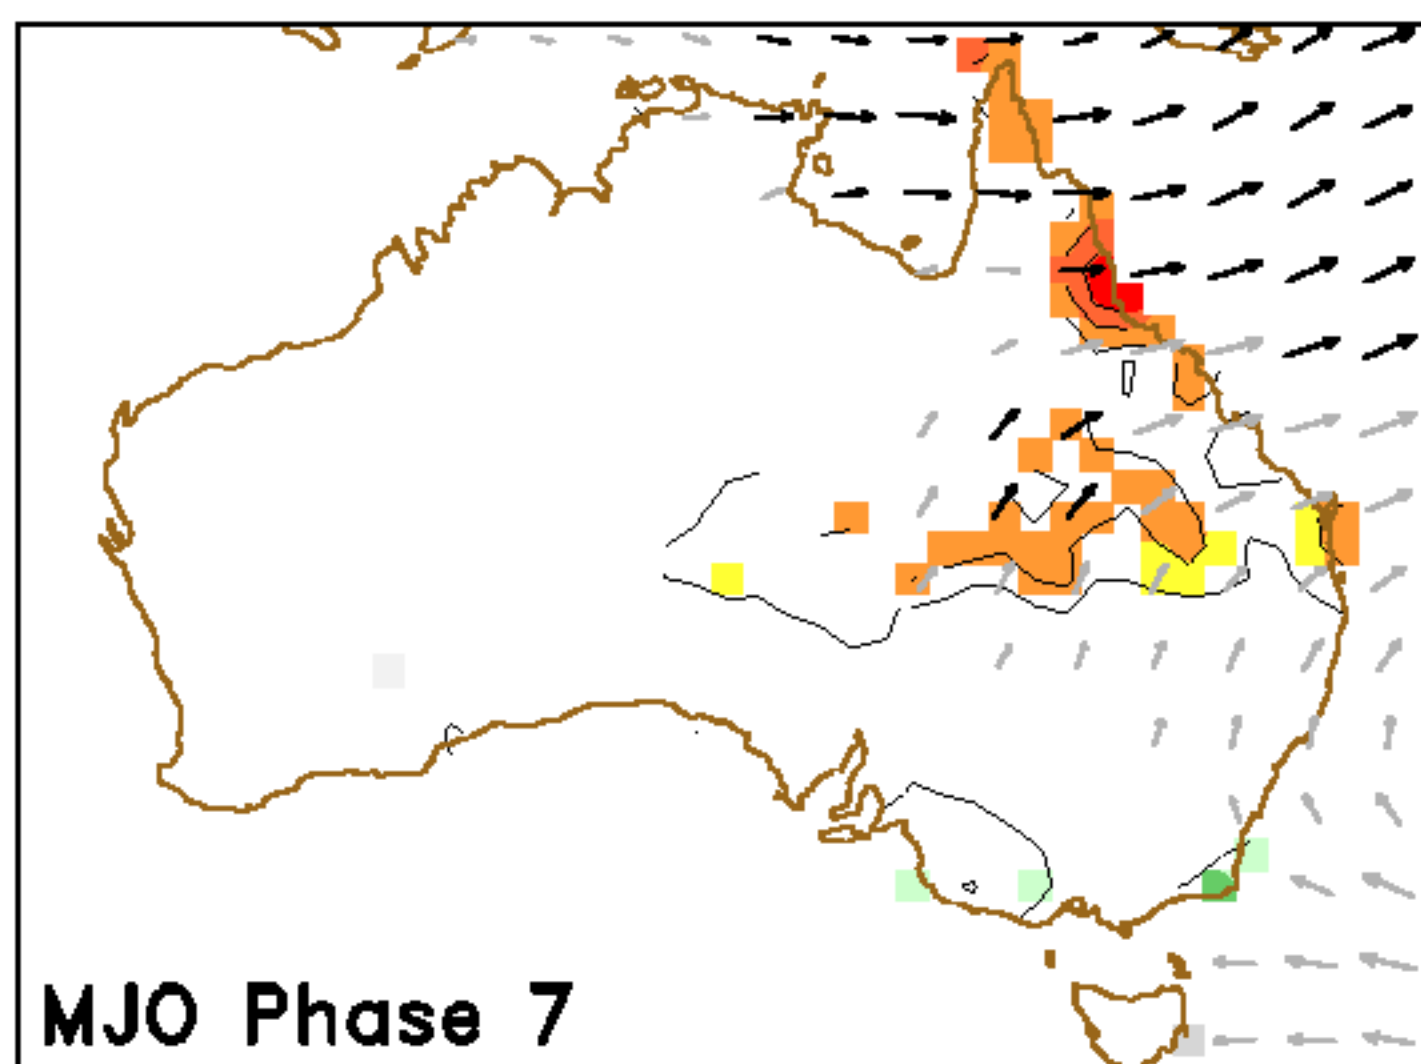

MJO Phase 2

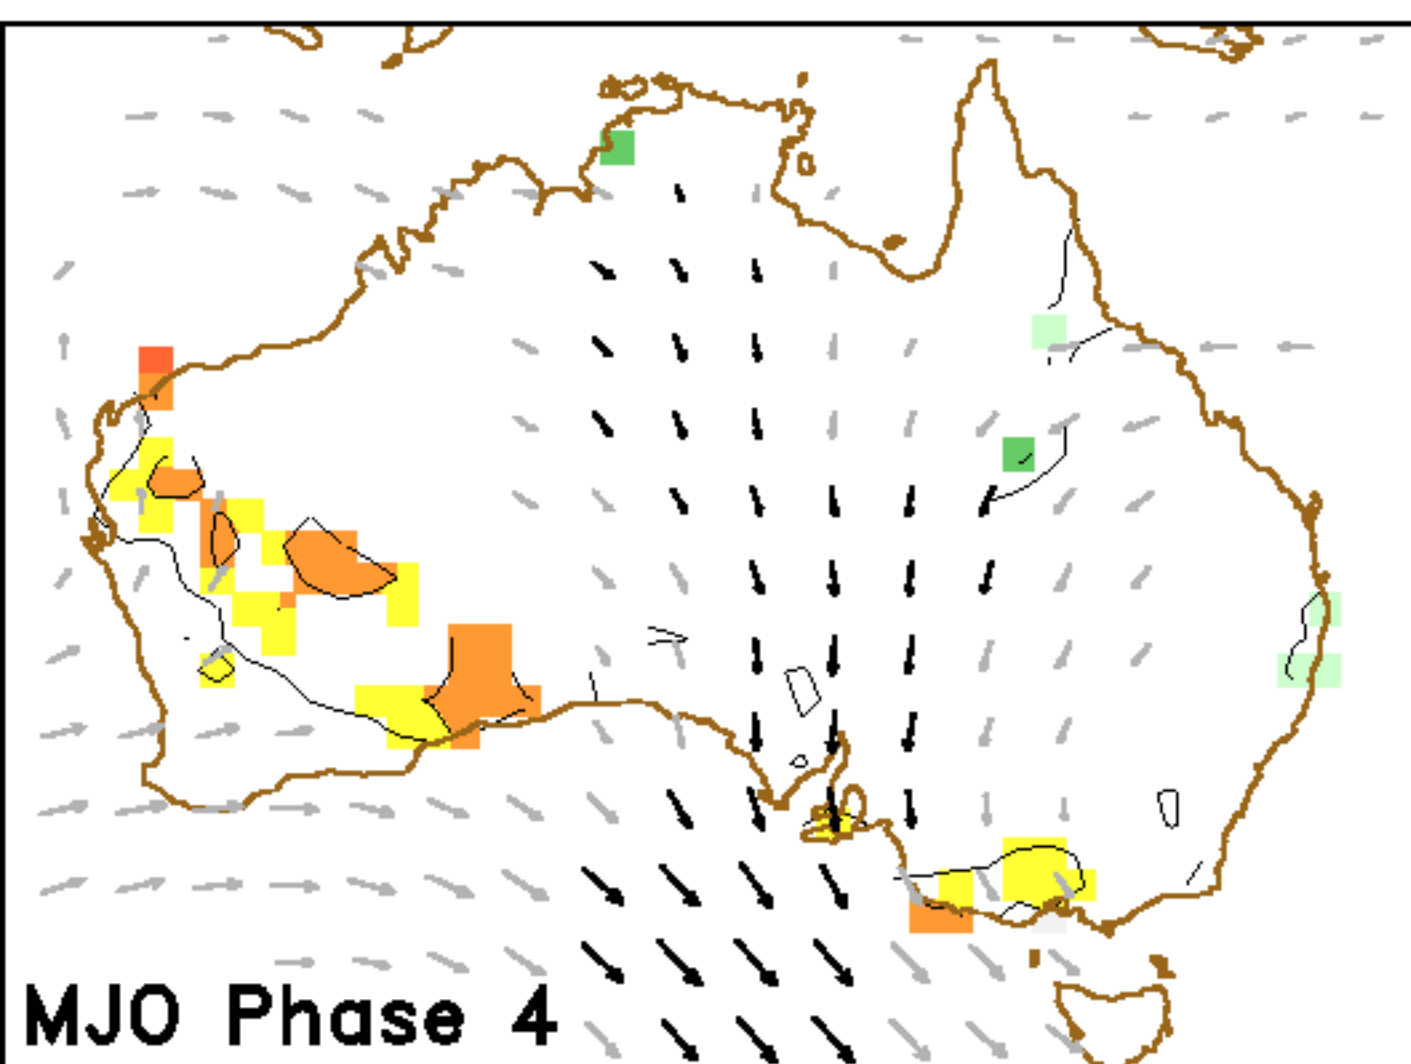

MJO Phase 6

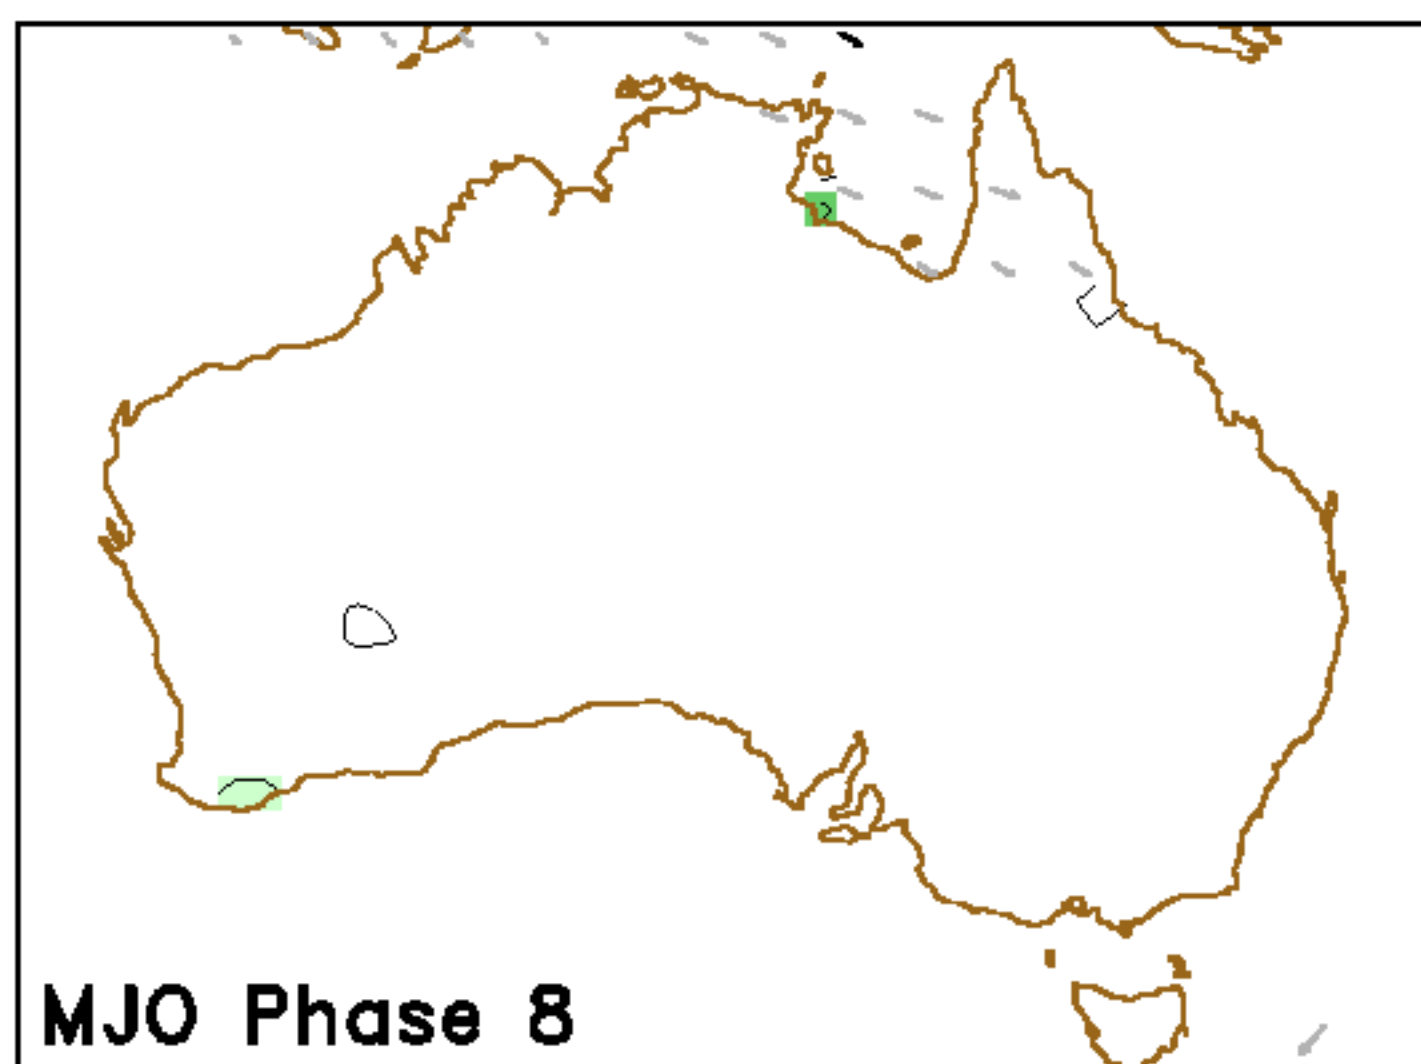

MJO Phase 3

MJO Phase 7

MJO Phase 4

MJO Phase 8

MJO average conditions
in Jul-Aug-Sep, 1974-2009

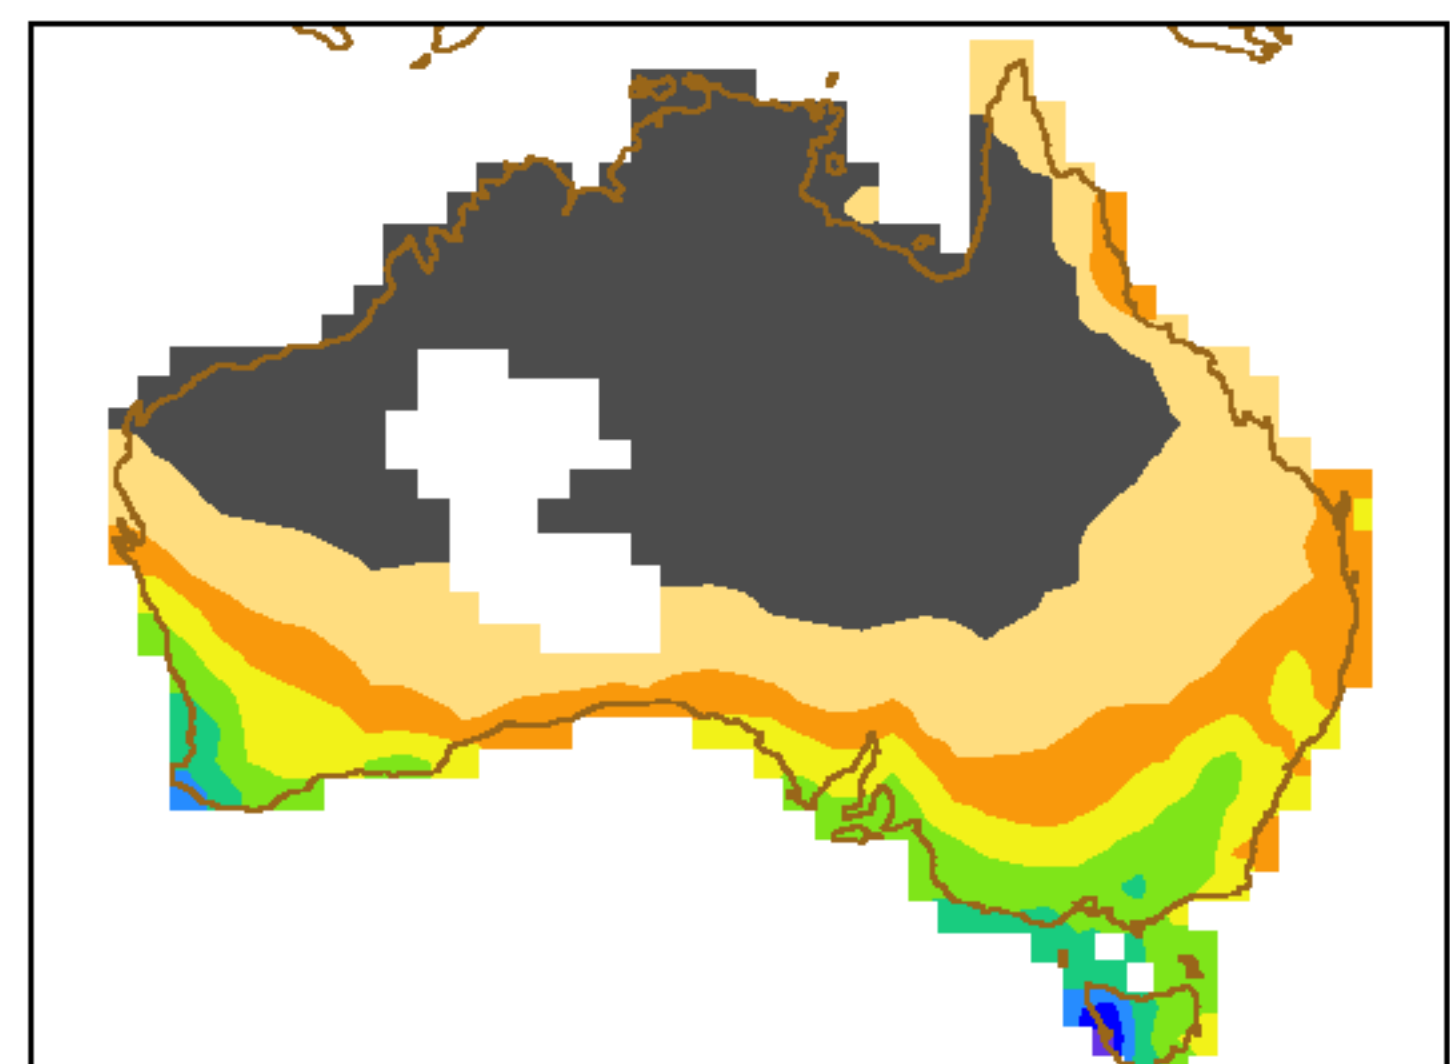

Rainfall odds
850 hPa wind anomalies

Rainfall odds shown as the chance of weekly rainfall exceeding the median in that MJO phase.

These calculations follow the method provided in the paper Wheeler, M., et al., 2009, Journal of Climate, Vol. 22, 1482-1498.

Shading and vectors only shown where statistically significant.

Australian Government
Bureau of Meteorology

Normal weekly rainfall in JAS (mm)

Chance of exceeding normal weekly rainfall
