

MJO Phase 1

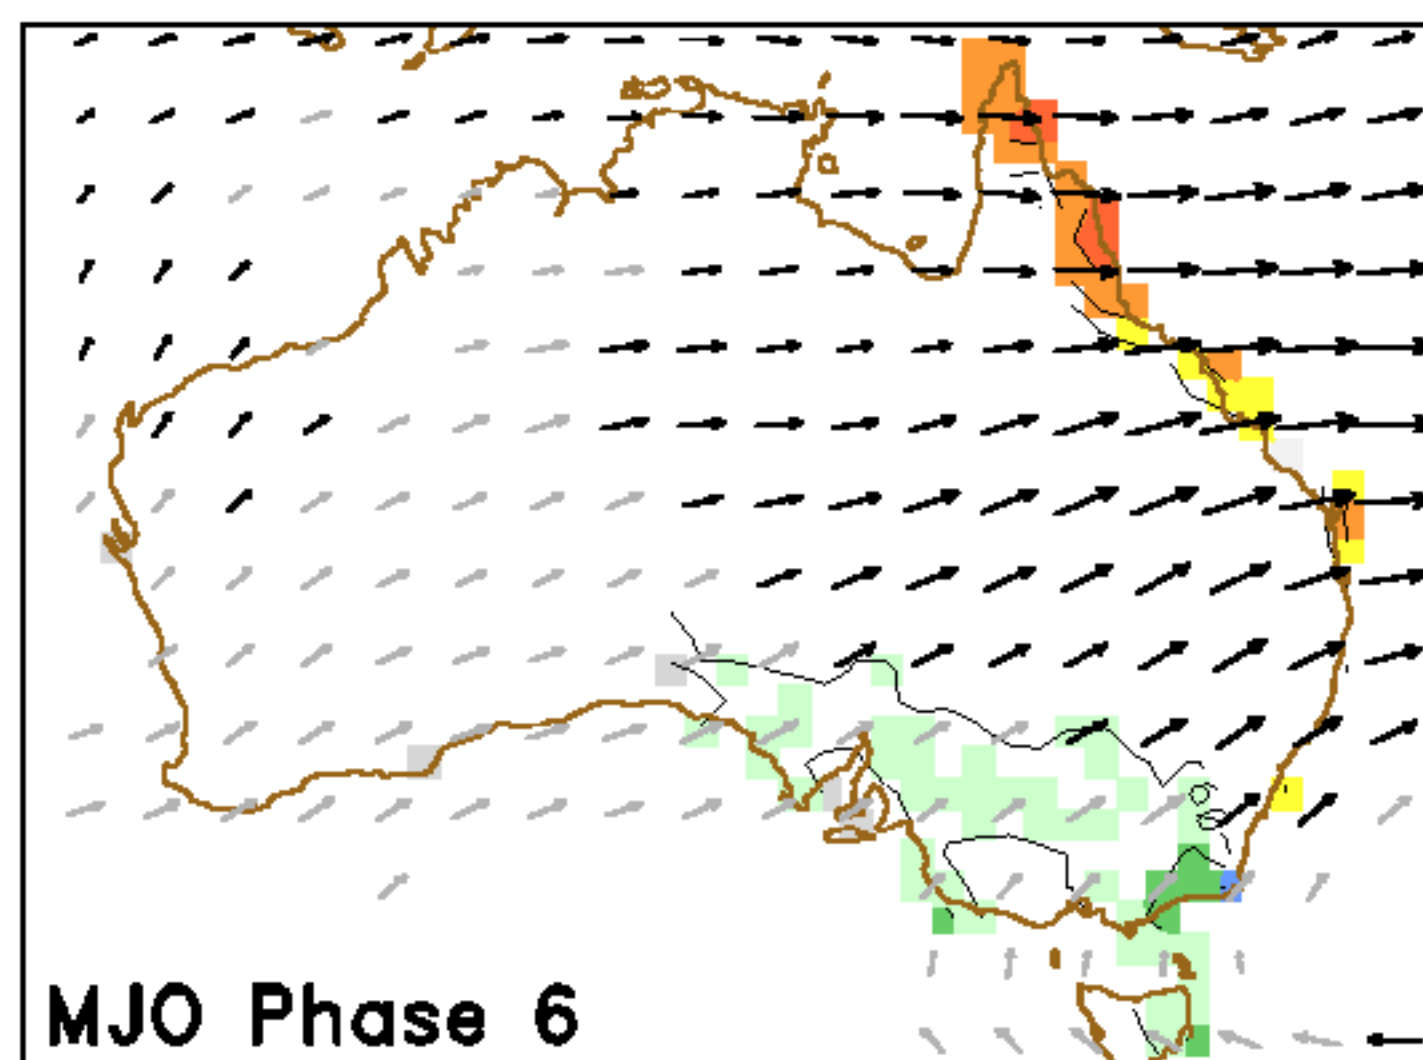

MJO Phase 5

MJO average conditions
in Jun-Jul-Aug, 1974-2009

Rainfall odds
850 hPa wind anomalies

MJO Phase 2

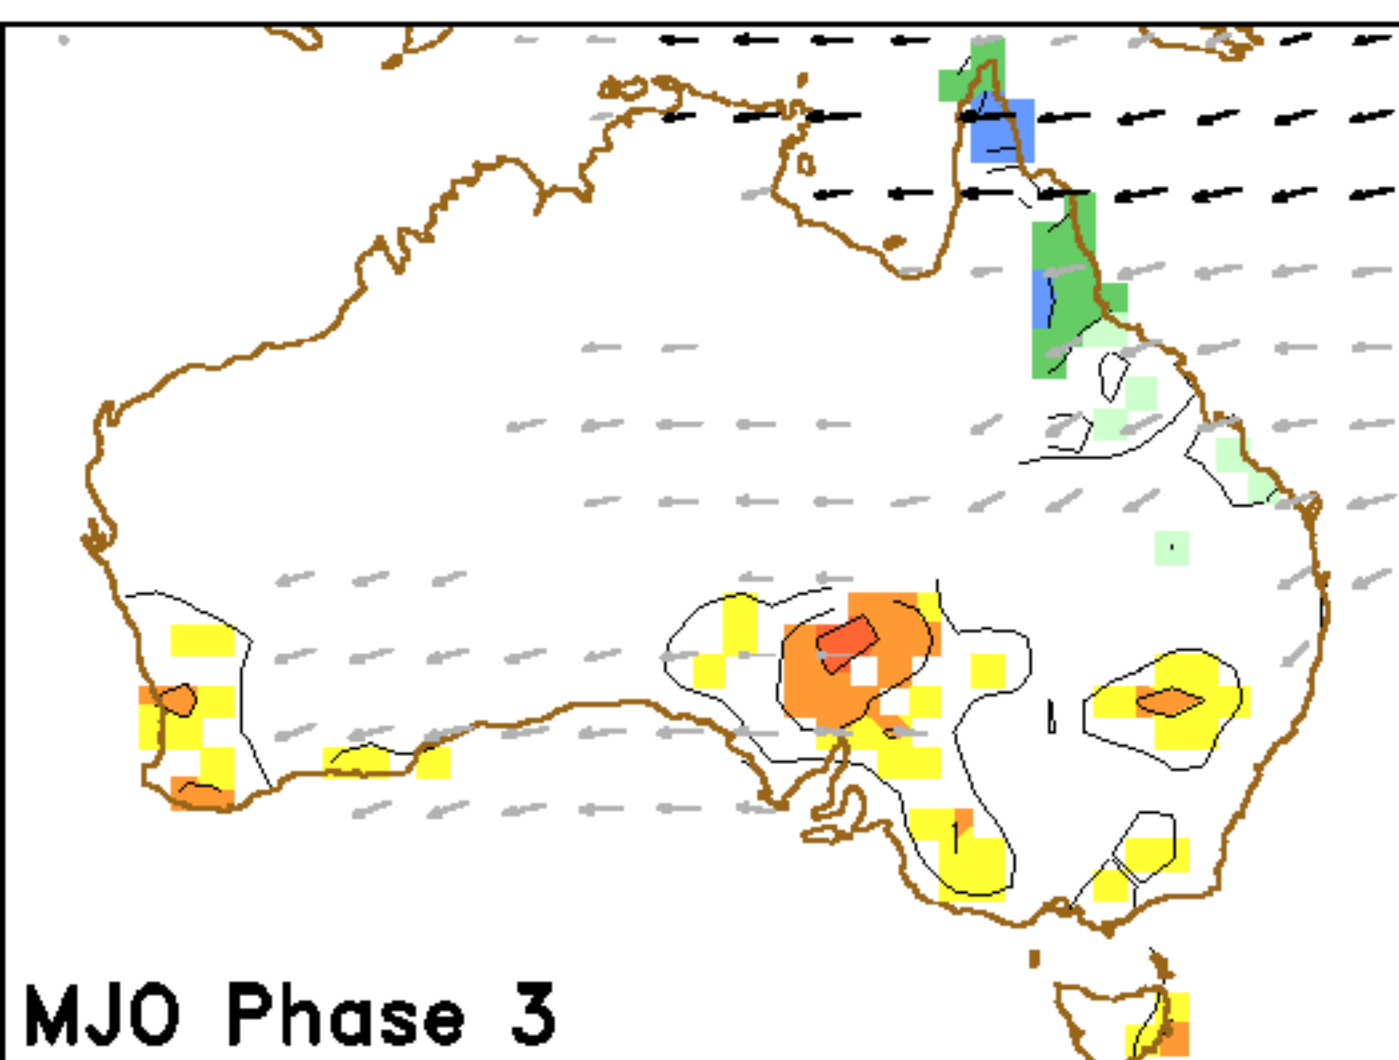

MJO Phase 6

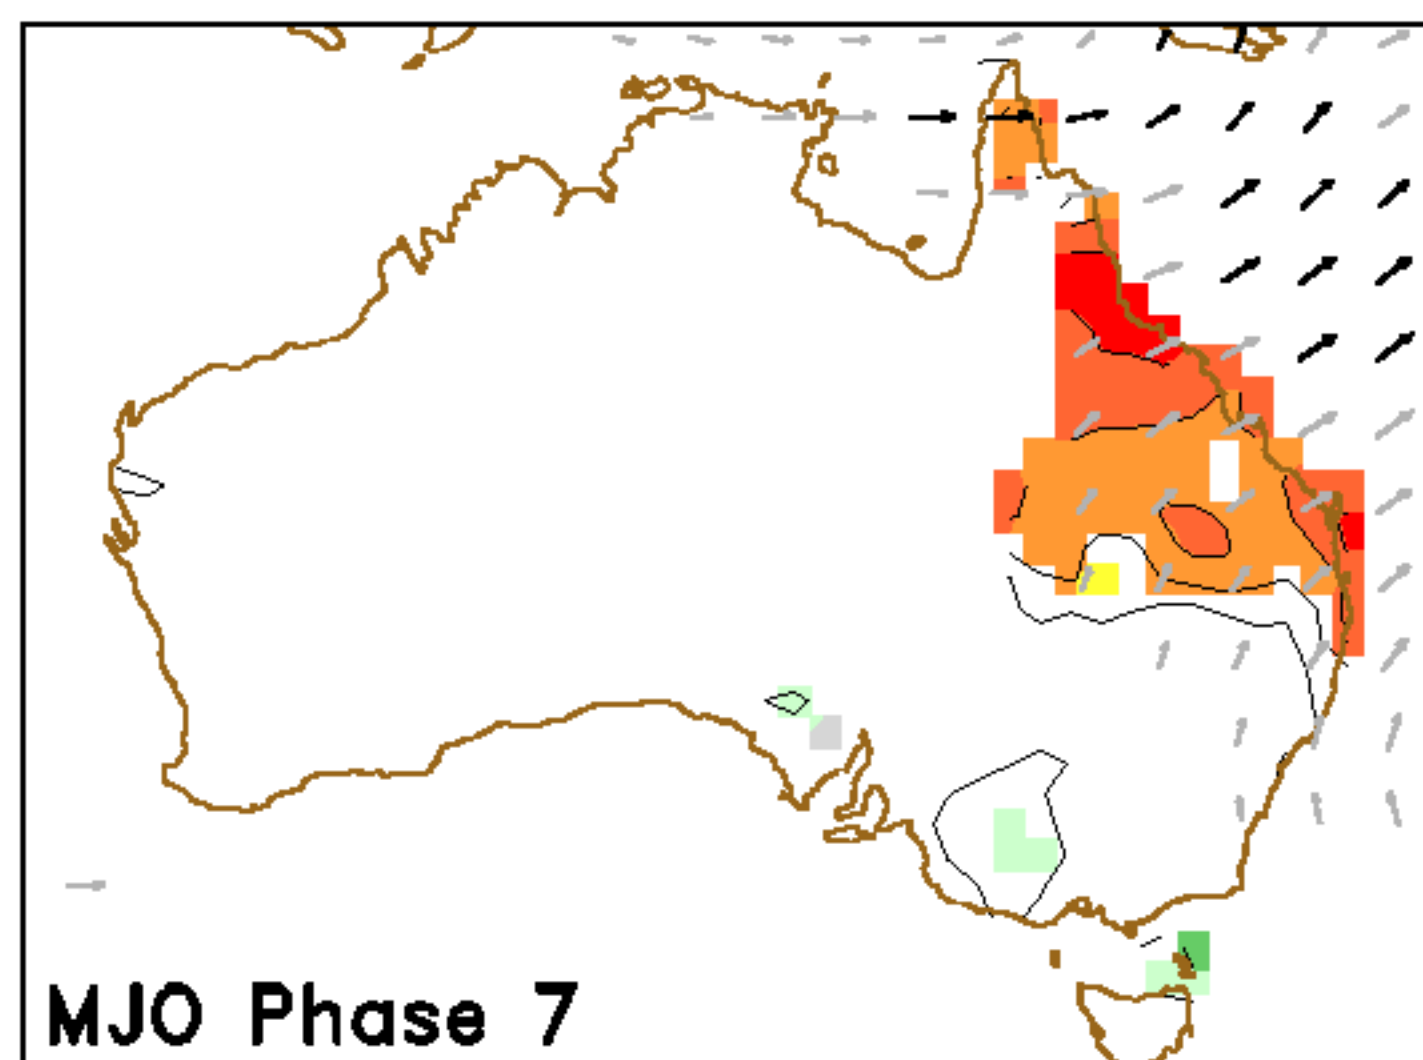

Rainfall odds shown as the chance of weekly rainfall exceeding the median in that MJO phase.

These calculations follow the method provided in the paper Wheeler, M., et al., 2009, Journal of Climate, Vol. 22, 1482-1498.

Shading and vectors only shown where statistically significant.

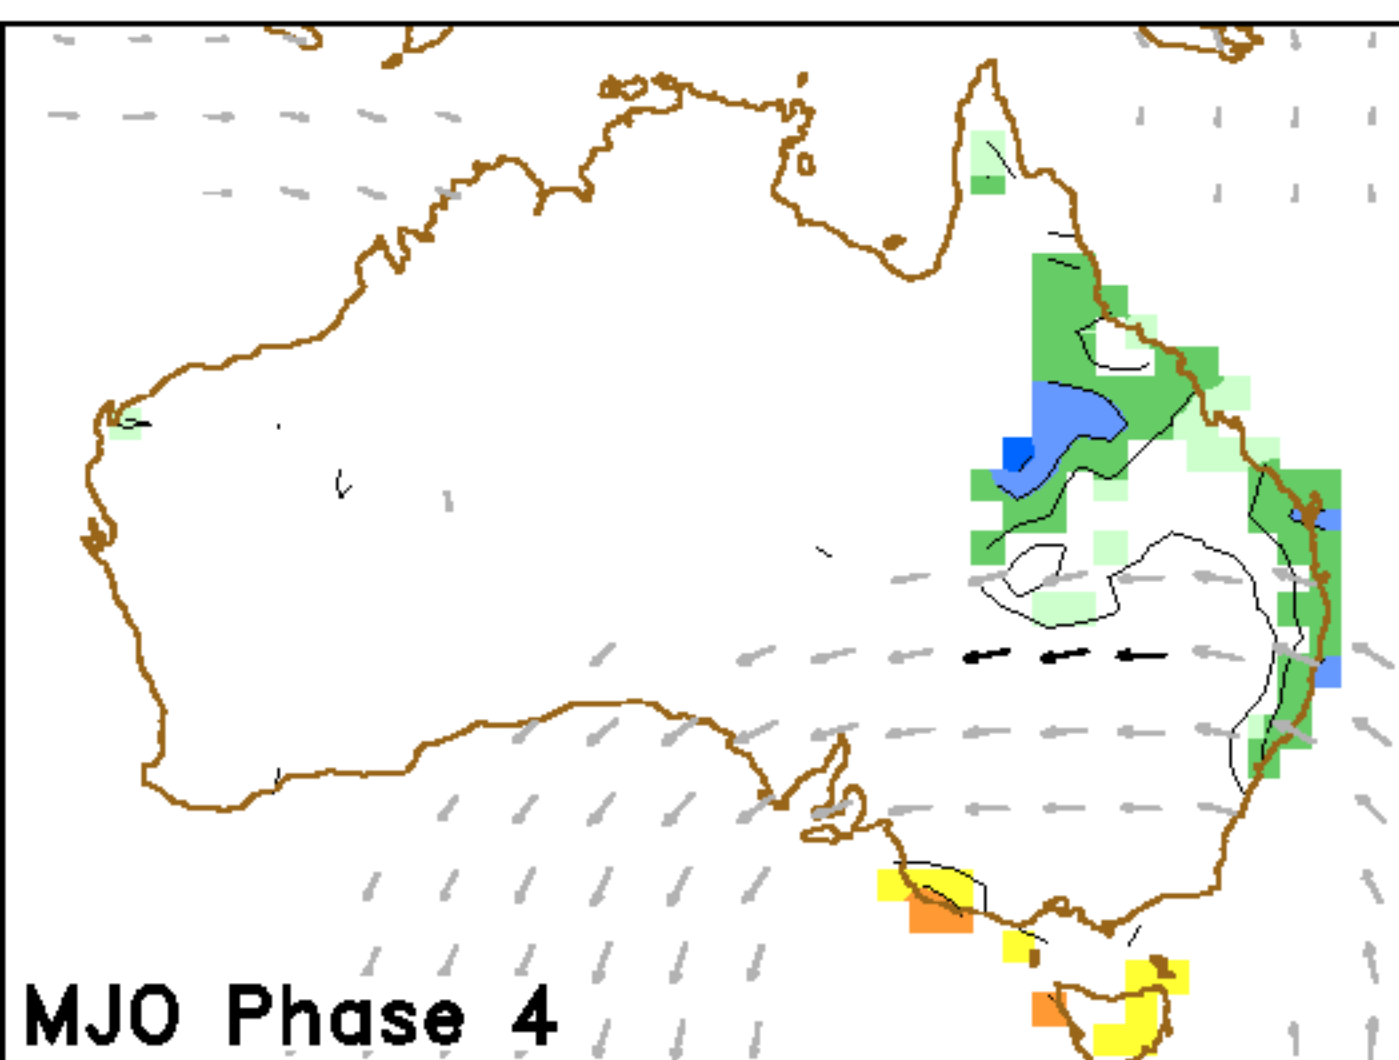

MJO Phase 3

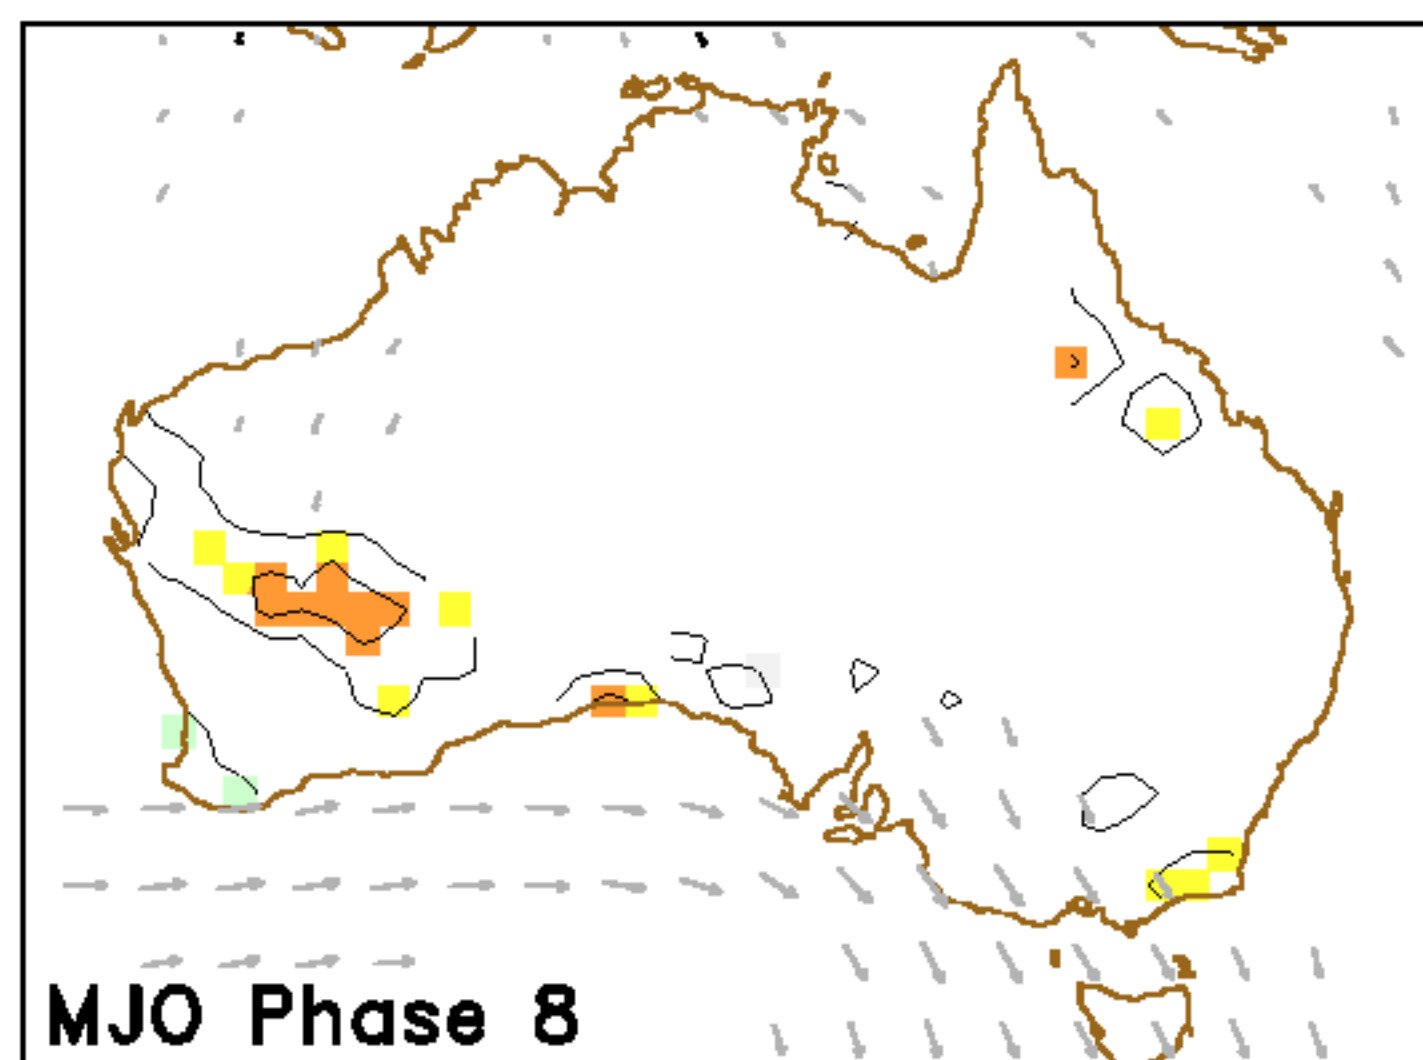

MJO Phase 7

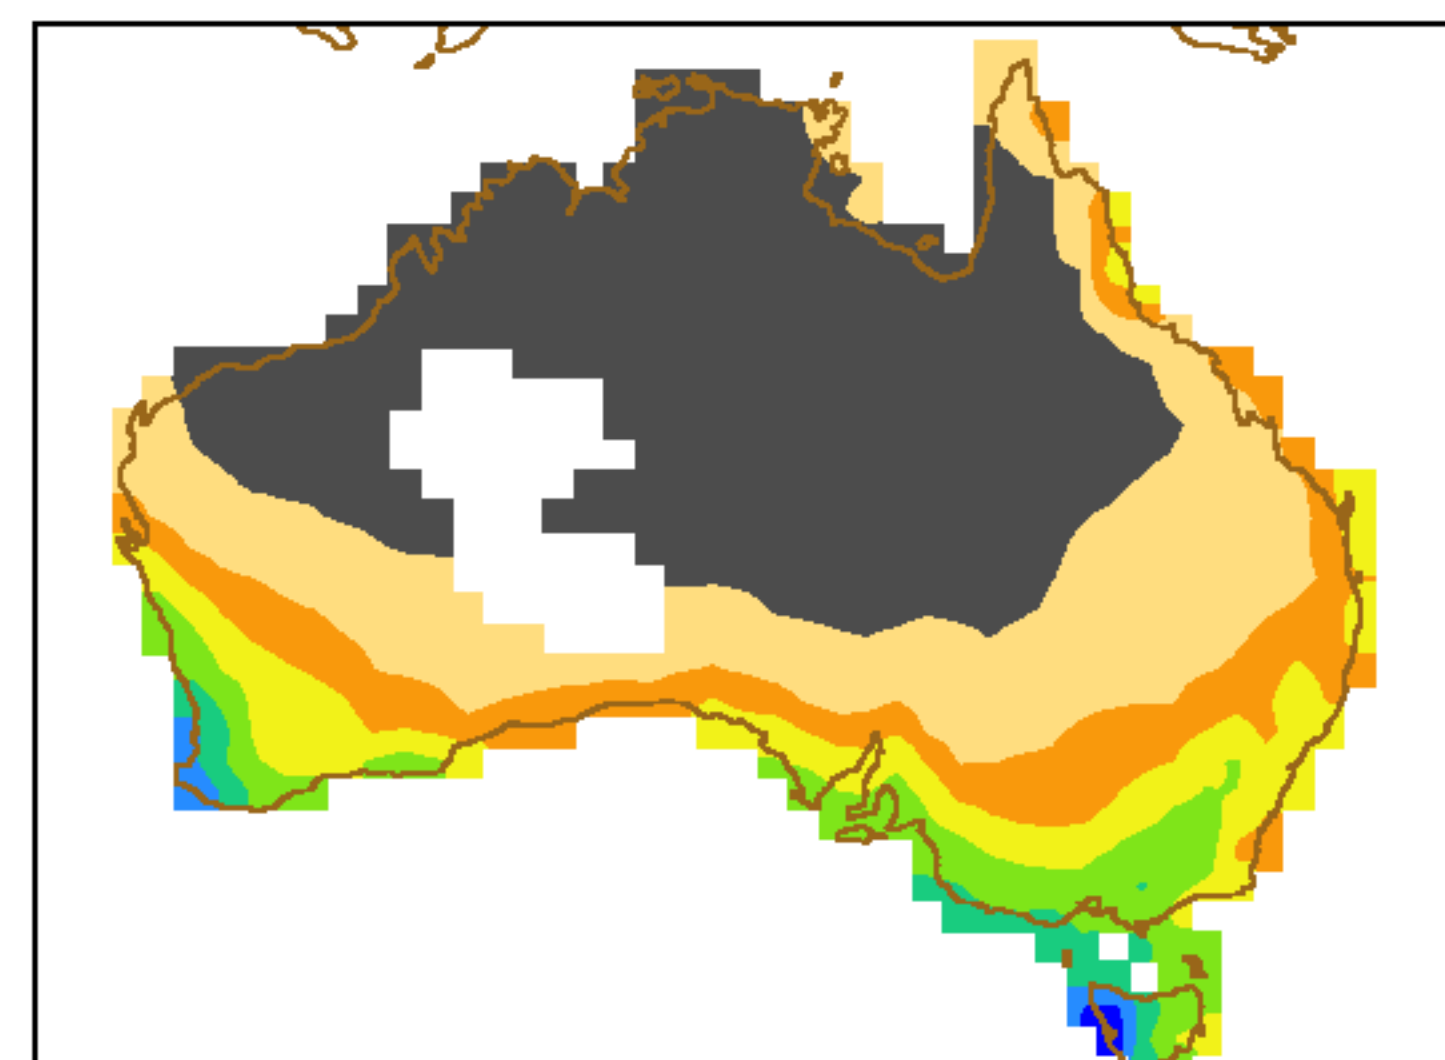

[Australian Government Bureau of Meteorology](#)

MJO Phase 4

MJO Phase 8

Normal weekly rainfall in JJA (mm)

Chance of exceeding normal weekly rainfall
