

Indexes – volume 58

Title index

- A climate reconstruction of Sydney Cove, New South Wales, using weather journal and documentary data, 1788–1791, 83
- A comparison of fire danger rating systems for use in forests, 41
- Adapting the Knaff and Zehr wind-pressure relationship for operational use in Tropical Cyclone Warning Centres, 167
- A heavy rainfall event in northern Tasmania during 27 to 30 January 2004, 151
- Emerging challenges in wind energy forecasting for Australia, 99
- High-quality spatial climate data-sets for Australia, 233
- Latitudinal positioning of the subtropical anticyclone along the Chilean coast, 107
- Low pressure systems off the New South Wales coast and associated hazardous weather: establishment of a database, 29
- Modelling Australian annual mean rainfall data: a new approach based on fractional integration, 119
- Modelling heatwaves in viticultural regions of southeastern Australia, 249
- Quarterly numerical weather prediction model performance summary April to June 2009, 209
- Quarterly numerical weather prediction model performance summary January to March 2009, 147
- Quarterly numerical weather prediction model performance summary July to September 2009, 297
- Quarterly numerical weather prediction model performance summary October to December 2008, 79
- Seasonal climate summary southern hemisphere (autumn 2008): a return to neutral ENSO conditions in the tropical Pacific, 63
- Seasonal climate summary southern hemisphere (autumn 2009): signs of an El Niño in the Pacific, 285
- Seasonal climate summary southern hemisphere (spring 2008): La Niña pattern returning across the equatorial Pacific, 199
- Seasonal climate summary southern hemisphere (summer 2008-09): a weak, brief La Niña returns. Bumper wet season in tropical Australia; exceptional heatwaves in south-eastern Australia, 275
- Seasonal climate summary southern hemisphere (winter 2008): ENSO neutral but positive phases for both IOD and SAM, 135
- Severe storms inferred from 150 years of sub-daily pressure observations along Victoria's 'Shipwreck Coast', 129
- Sounding the lower atmosphere using a ground-based hyperspectral infrared sounder - the Bureau of Meteorology AERI, 181
- Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part I: control forecasts based on climatology and persistence, 1
- Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part II: statistical – dynamical forecasts, 9
- Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part III: forecasts based on a multi-model consensus approach, 19
- The CGR4 lightning sensor, 263
- The structure and evolution of the northern Australian dryline, 215
- The tropical circulation in the Australian and Asian region - May to October 2008, 49
- The tropical circulation in the Australian and Asian region - November 2008 to April 2009, 187

Author index

- Alexander, Lisa V. and Power, Scott. Severe storms inferred from 150 years of sub-daily pressure observations along Victoria's 'Shipwreck Coast', 129
- Allan, Rob J., Gergis, Joëlle and Karoly, David J. A climate reconstruction of Sydney Cove, New South Wales, using weather journal and documentary data, 1788–1791, 83
- Arnup, Sarah J. and Reeder, Michael J. The structure and evolution of the northern Australian dryline, 215
- Chandler, Elise. Seasonal climate summary southern hemisphere (autumn 2009): signs of an El Niño in the Pacific, 285
- Courtney, Joe and Knaff, John A. Adapting the Knaff and Zehr wind-pressure relationship for operational use in Tropical Cyclone Warning Centres, 167
- Cutler, Nicholas, Micolich, Adam, MacGill, Iain, Outhred, Hugh and Kay, Merlinde J. Emerging challenges in wind energy forecasting for Australia, 99
- Darveniza, M., Hettrick, P. and Mackerras, D. The CGR4 lightning sensor, 263
- Duell, Robyn. Seasonal climate summary southern hemisphere (autumn 2008): a return to neutral ENSO conditions in the tropical Pacific, 63

- Fawcett, R.J.B. Seasonal climate summary southern hemisphere (winter 2008): ENSO neutral but positive phases for both IOD and SAM, 135
- Fawcett, Robert, Jones, David A. and Wang, William. High-quality spatial climate data-sets for Australia, 233
- Fox-Hughes, P. A heavy rainfall event in northern Tasmania during 27 to 30 January 2004, 151
- Gergis, Joëlle, Karoly, David J. and Allan, Rob J. A climate reconstruction of Sydney Cove, New South Wales, using weather journal and documentary data, 1788–1791, 83
- Gil-Alana, L.A. Modelling Australian annual mean rainfall data: a new approach based on fractional integration, 119
- Grace, Warwick J., Sadras, Victor O. and Hayman, Peter T. Modelling heatwaves in viticultural regions of southeastern Australia, 249
- Hayman, Peter T., Grace, Warwick J. and Sadras, Victor O. Modelling heatwaves in viticultural regions of southeastern Australia, 249
- Hettrick, P., Mackerras, D. and Darveniza, M. The CGR4 lightning sensor, 263
- Jones, David A., Wang, William and Fawcett, Robert. High-quality spatial climate data-sets for Australia, 233
- Karoly, David J., Allan, Rob J. and Gergis, Joëlle. A climate reconstruction of Sydney Cove, New South Wales, using weather journal and documentary data, 1788–1791, 83
- Kay, Merlinde J., Cutler, Nicholas, Micolich, Adam, MacGill, Iain and Outhred, Hugh. Emerging challenges in wind energy forecasting for Australia, 99
- Knaff, John A. and Courtney, Joe. Adapting the Knaff and Zehr wind-pressure relationship for operational use in Tropical Cyclone Warning Centres, 167
- Knaff, John A. and Sampson, Charles R. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part I: control forecasts based on climatology and persistence, 1
- Knaff, John A. and Sampson, Charles R. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part II: statistical – dynamical forecasts, 9
- Knaff, John A. and Sampson, Charles R. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part III: forecasts based on a multi-model consensus approach, 19
- Le Marshall, John, Lehmann, Paul, Weymouth, Gary and Potts, Rod. Sounding the lower atmosphere using a ground-based hyperspectral infrared sounder - the Bureau of Meteorology AERI, 181
- Lehmann, Paul, Weymouth, Gary, Potts, Rod and Le Marshall, John. Sounding the lower atmosphere using a ground-based hyperspectral infrared sounder - the Bureau of Meteorology AERI, 181
- MacGill, Iain, Outhred, Hugh, Kay, Merlinde J., Cutler, Nicholas and Micolich, Adam. Emerging challenges in wind energy forecasting for Australia, 99
- Mackerras, D., Darveniza, M. and Hettrick, P. The CGR4 lightning sensor, 263
- Matthews, Stuart. A comparison of fire danger rating systems for use in forests, 41
- Mendoza, Eduardo A., Minetti, Juan L., Vargas, Walter M. and Poblete, Arnobio G. Latitudinal positioning of the subtropical anticyclone along the Chilean coast, 107
- Micolich, Adam, MacGill, Iain, Outhred, Hugh, Kay, Merlinde J. and Cutler, Nicholas. Emerging challenges in wind energy forecasting for Australia, 99
- Minetti, Juan L., Vargas, Walter M., Poblete, Arnobio G. and Mendoza, Eduardo A. Latitudinal positioning of the subtropical anticyclone along the Chilean coast, 107
- Mullen, Clare. Seasonal climate summary southern hemisphere (summer 2008-09): a weak, brief La Niña returns. Bumper wet season in tropical Australia; exceptional heatwaves in southeastern Australia, 275
- Outhred, Hugh, Kay, Merlinde J., Cutler, Nicholas, Micolich, Adam and MacGill, Iain. Emerging challenges in wind energy forecasting for Australia, 99
- Pepler, Acacia, Speer, Milton S. and Wiles, Perry. Low pressure systems off the New South Wales coast and associated hazardous weather: establishment of a database, 29
- Poblete, Arnobio G., Mendoza, Eduardo A., Minetti, Juan L. and Vargas, Walter M. Latitudinal positioning of the subtropical anticyclone along the Chilean coast, 107
- Potts, Rod, Le Marshall, John, Lehmann, Paul and Weymouth, Gary. Sounding the lower atmosphere using a ground-based hyperspectral infrared sounder - the Bureau of Meteorology AERI, 181
- Power, Scott and Alexander, Lisa V. Severe storms inferred from 150 years of sub-daily pressure observations along Victoria's 'Shipwreck Coast', 129
- Qi, Lixin. Seasonal climate summary southern hemisphere (spring 2008): La Niña pattern returning across the equatorial Pacific, 199
- Reeder, Michael J. and Arnup, Sarah J. The structure and evolution of the northern Australian dryline, 215
- Sadras, Victor O., Hayman, Peter T. and Grace, Warwick J. Modelling heatwaves in viticultural regions of southeastern Australia, 249
- Sampson, Charles R. and Knaff, John A. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part I: control forecasts based on climatology and persistence, 1
- Sampson, Charles R. and Knaff, John A. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part II: statistical – dynamical forecasts, 9

- Sampson, Charles R. and Knaff, John A. Southern hemisphere tropical cyclone intensity forecast methods used at the Joint Typhoon Warning Center, Part III: forecasts based on a multi-model consensus approach, 19
- Shaik, Hakeem A. The tropical circulation in the Australian and Asian region - May to October 2008, 49
- Shaik, Hakeem. The tropical circulation in the Australian and Asian region - November 2008 to April 2009, 187
- Speer, Milton S., Wiles, Perry and Pepler, Acacia. Low pressure systems off the New South Wales coast and associated hazardous weather: establishment of a database, 29
- Vargas, Walter M., Poblete, Arnobio G., Mendoza, Eduardo A. and Minetti, Juan L. Latitudinal positioning of the subtropical anticyclone along the Chilean coast, 107
- Wang, William, Fawcett, Robert and Jones, David A. High-quality spatial climate data-sets for Australia, 233
- Weymouth, Gary, Potts, Rod, Le Marshall, John and Lehmann, Paul. Sounding the lower atmosphere using a ground-based hyperspectral infrared sounder - the Bureau of Meteorology AERI, 181
- Wiles, Perry, Pepler, Acacia and Speer, Milton S. Low pressure systems off the New South Wales coast and associated hazardous weather: establishment of a database, 29
- Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary April to June 2009, 209
- Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary January to March 2009, 147
- Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary July to September 2009, 297
- Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary October to December 2008, 79
