

# Indexes – volume 60

## Title index

- A climatology of pressure jumps around the Gulf of Carpentaria, 91
- A comparison of two seasonal rainfall forecasting systems for Australia, 15
- A personal perspective: Attachment to *Tracy* revisited: historical perspective, synoptics, track, and winds, 155
- A review of the impact of cyclone *Tracy* on building regulations and insurance, 199
- A westward propagating roll cloud and cool change on Tasmania's north coast, 237
- Assessing the impacts of tropical cyclone *Tracy* on residential building stock - 1974 and 2008, 213
- Challenges in developing a high-quality surface wind-speed data-set for Australia, 227
- Changes in frequency of record temperatures in Australia, 1957-2009, 113
- Darwin's mid-evening surge, 25
- Identifying early morning fog and low cloud predictors for northern parts of the Northern Territory of Australia, utilising satellite-derived data, 249
- Impact statistics of *Tracy* and an opportunity missed, 207
- Managing the national response: The Canberra story, 221
- Modelling the *Tracy* storm surge - implications for storm structure and intensity estimation, 187
- On developing a historical fire weather data-set for Australia, 1
- On the climatology of surface wind direction frequencies for the central Chilean coast, 103
- On the intensification and recurvature of tropical cyclone *Tracy* (1974), 169
- Quarterly numerical weather prediction model performance summaries April to June 2010 and July to September 2010, 301
- Quarterly numerical weather prediction model performance summary January to March 2010, 139
- Quarterly numerical weather prediction model performance summary October to December 2009, 87
- Seasonal climate summary southern hemisphere (spring 2009): rapid intensification of El Niño, drier than average northern and eastern Australia and warmer than average throughout, 127
- Seasonal climate summary southern hemisphere (summer 2009–2010): An El Niño summer; wetter than average for east, north and central areas, dry in Western Australia and Tasmania, 289
- Seasonal climate summary southern hemisphere (winter 2009): a developing El Niño and an exceptionally warm winter for much of Australia, 75
- Structural characteristics of mesoscale convective systems over southeast Brazil related to cold frontal and non-frontal incursions, 49
- Synoptic weather types in the south of South America and their relationship to daily rainfall in the core crop-producing region in Argentina, 37
- The beneficial impact of radio occultation observations on Australian region forecasts, 121
- The benefit of hindsight: re-examining the maximum winds during tropical cyclone *Tracy*, 159
- The tropical circulation in the Australian and Asian region - May to October 2009, 63
- The tropical circulation in the Australian and Asian region - November 2009 to April 2010, 277
- Tracy* revisited: historical perspective, synoptics, track, and winds, 145
- Tropical cyclone *Tracy* - numerical guidance then and now, 179
- Wind waves and their relationship to storm surges in northeastern Bass Strait, 265

## Author index

- Arthur, Craig; Cechet, Bob and Schofield, Anthony  
Assessing the impacts of tropical cyclone *Tracy* on residential building stock - 1974 and 2008, 213
- Bettolli, M. Laura; Penalba, Olga C. and Vargas, Walter M.  
Synoptic weather types in the south of South America and their relationship to daily rainfall in the core crop-producing region in Argentina, 37
- Bridge, Chris and Wu, Xiaoxi. Quarterly numerical weather prediction model performance summaries April to June 2010 and July to September 2010, 301
- Bridge, Chris and Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary January to March 2010, 139
- Cechet, Bob; Schofield, Anthony and Arthur, Craig.  
Assessing the impacts of tropical cyclone *Tracy* on residential building stock - 1974 and 2008, 213

- Courtney, Joe and Shepherd, Ian. The benefit of hindsight: re-examining the maximum winds during Tropical Cyclone *Tracy*, 159
- Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei and Rea, Anthony. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- da Silva Marques, Valdo and Siqueira, Jose Ricardo. Structural characteristics of mesoscale convective systems over southeast Brazil related to cold frontal and non-frontal incursions, 49
- Davidson, Noel E. On the intensification and recurvature of tropical cyclone *Tracy* (1974), 169
- Fawcett, R.J.B. Seasonal climate summary southern hemisphere (spring 2009): rapid intensification of El Niño, drier than average northern and eastern Australia and warmer than average throughout, 127
- Fawcett, R.J.B. and Stone, R.C. A comparison of two seasonal rainfall forecasting systems for Australia, 15
- Foppiano, Alberto J.; Saavedra, Nelson and Müller, Erna P. On the climatology of surface wind direction frequencies for the central Chilean coast, 103
- Harper, Bruce A. Modelling the *Tracy* storm surge – implications for storm structure and intensity estimation, 187
- Holland, Greg J. *Tracy* revisited: historical perspective, synoptics, track, and winds, 145
- Holland, Greg J. A personal perspective: Attachment to *Tracy* revisited: historical perspective, synoptics, track, and winds, 155
- Jakob, Dörte. Challenges in developing a high-quality surface wind-speed data-set for Australia, 227
- Jakob, Dörte. Seasonal climate summary southern hemisphere (winter 2009): a developing El Niño and an exceptionally warm winter for much of Australia, 75
- Jones, Roger. Managing the national response: The Canberra story, 221
- Le Marshall, John F. and Leslie, Lance M. Tropical cyclone *Tracy* - numerical guidance then and now, 179
- Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K. and Le, Tan. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter and Puri, K. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Leicester, R.H. and Reardon, G. Impact statistics of *Tracy* and an opportunity missed, 207
- Leslie, Lance M. and Le Marshall, John F. Tropical cyclone *Tracy* - numerical guidance then and now, 179
- Lucas, Christopher. On developing a historical fire weather data-set for Australia, 1
- McInnes, Kathleen and O'Grady, Julian. Wind waves and their relationship to storm surges in northeastern Bass Strait, 265
- Michael J. Reeder; Nudelman, Ilona and Smith, Roger K. A climatology of pressure jumps around the Gulf of Carpentaria, 91
- Mills, Graham A. A westward propagating roll cloud and cool change on Tasmania's north coast, 237
- Müller, Erna P.; Foppiano, Alberto J. and Saavedra, Nelson. On the climatology of surface wind direction frequencies for the central Chilean coast, 103
- Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John and Xiao, Yi. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Nudelman, Ilona; Smith, Roger K. and Michael J. Reeder. A climatology of pressure jumps around the Gulf of Carpentaria, 91
- O'Grady, Julian G. and McInnes, Kathleen L. Wind waves and their relationship to storm surges in northeastern Bass Strait, 265
- Penalba, Olga C.; Vargas, Walter M. and Bettolli, M. Laura. Synoptic weather types in the south of South America and their relationship to daily rainfall in the core crop-producing region in Argentina, 37
- Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf and Steinle, Peter. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert and Zhand, Kefei. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Reardon, G. and Leicester, R.H. Impact statistics of *Tracy* and an opportunity missed, 207
- Saavedra, Nelson; Müller, Erna P. and Foppiano, Alberto J. On the climatology of surface wind direction frequencies for the central Chilean coast, 103
- Schofield, Anthony; Arthur, Craig and Cechet, Bob. Assessing the impacts of tropical cyclone *Tracy* on residential building stock - 1974 and 2008, 213

- Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony and Cucurull, Lidia. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Shaik, Hakeem A. The tropical circulation in the Australian and Asian region - November 2009 to April 2010, 277
- Shaik, Hakeem A. The tropical circulation in the Australian and Asian region - May to October 2009, 63
- Shepherd, Ian and Courtney, Joe. The benefit of hindsight: re-examining the maximum winds during tropical cyclone *Tracy*, 159
- Siqueira, Jose Ricardo and da Silva Marques, Valdo. Structural characteristics of mesoscale convective systems over southeast Brazil related to cold frontal and non-frontal incursions, 49
- Smith, Roger K. and Thomsen, Gerald L. Darwin's mid-evening surge, 25
- Smith, Roger K.; Michael J. Reeder and Nudelman, Ilona. A climatology of pressure jumps around the Gulf of Carpentaria, 91
- Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia and Seecamp, Rolf. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Stone, R.C. and Fawcett, R.J.B. A comparison of two seasonal rainfall forecasting systems for Australia, 15
- Thomsen, Gerald L. and Smith, Roger K. Darwin's mid-evening surge, 25
- Tobin, Skie. Seasonal climate summary southern hemisphere (summer 2009–2010): An El Niño summer; wetter than average for east, north and central areas, dry in Western Australia and Tasmania, 289
- Trewin, Blair and Vermont, Harrison. Changes in frequency of record temperatures in Australia, 1957-2009, 113
- Vargas, Walter M.; Bettolli, M. Laura and Penalba, Olga C. Synoptic weather types in the south of South America and their relationship to daily rainfall in the core crop-producing region in Argentina, 37
- Vermont, Harrison and Trewin, Blair. Changes in frequency of record temperatures in Australia, 1957-2009, 113
- Walker, George R. A review of the impact of cyclone *Tracy* on building regulations and insurance, 199
- Wu, Xiaoxi. Quarterly numerical weather prediction model performance summary October to December 2009, 87
- Wu, Xiaoxi and Bridge, Chris. Quarterly numerical weather prediction model performance summaries April to June 2010 and July to September 2010, 301
- Wu, Xiaoxi and Bridge, Chris. Quarterly numerical weather prediction model performance summary January to March 2010, 139
- Xiao, Yi; Norman, Robert; Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan and Le Marshall, John. The beneficial impact of radio occultation observations on Australian region forecasts, 121
- Zeschke, Bodo. Identifying early morning fog and low cloud predictors for northern parts of the Northern Territory of Australia, utilising satellite-derived data, 249
- Zhand, Kefei; Rea, Anthony; Cucurull, Lidia; Seecamp, Rolf; Steinle, Peter; Puri, K.; Le, Tan; Le Marshall, John; Xiao, Yi and Norman, Robert. The beneficial impact of radio occultation observations on Australian region forecasts, 121
