

## **David Putland (Department of Environment & Science (Queensland Government))**

**Session 3: Further examples of good practice.**

**Title: Origin and evolution of the Queensland Future Climate Dashboard**

**Co-authors: R. Trancoso, J. Syktus, S. Chapman, D. Ahrens, D.Owens, N. Toombs,  
H. Zhang**

The Queensland Future Climate Dashboard provides the interface that allows users to explore and download Queensland's high-resolution climate projections data. Information is available for different regions and in different formats to suit multiple user groups. This presentation will describe some of the thinking behind the Dashboard and how it has been received by users.
