

## **Frank Colberg, Bureau of Meteorology**

Bio:

Frank Colberg has been working for the Bureau of Meteorology for about 9 years as a regional ocean modeller, he currently leads the Ocean Modelling Team in the Earth System Modelling section of the Bureau. Frank holds a PhD degree in physical oceanography which he obtained from the University of Cape Town in 2006. He has been employed as an ocean circulation modeller at various locations including the Jet Propulsion Laboratory/ California Institute of Technology, the University of Tasmania/ Antarctic Climate and Ecosystems CRC and the CSIRO before he joined the Bureau. His research interests vary from large scale ocean modelling to regional modelling to idealized impact studies including simulations of the coupled ocean-wave system.
