Total				10.0																	

Temperature, humidity, wind, pressure, cloud and rainfall observations are from Tamworth Airport AWS {station 055325}. Evaporation observations are from Tamworth (Oxley Lane) {station 055327}

Some cloud observations are from automated equipment; these are somewhat different to those made by a human observer and may not appear every day. Evaporation data becomes available as written records are processed, which may not be for several months.
