Temperature, humidity, wind, cloud and rainfall observations are from Bellambi AWS (station 068228). Pressure observations are from Albion Park (Shellharbour Airport) (station 068241)

Some cloud observations are from automated equipment; these are somewhat different to those made by a human observer and may not appear every day. Albion Park is about 25 km southwest of Bellambi (and 18 km from Wollongong), and the pressure there will sometimes be markedly different.
