Temperature, humidity, wind, pressure and rainfall observations are from Mount Crawford AWS (station 023878). Cloud and sunshine observations are from Nuriootpa Pirsa (station 023373). Evaporation observations are from Williamstown (South Para Reservoir) (station 023820)

Evaporation data from Williamstown (updated monthly) is representative of an open site in the area, but note evaporation is affected by cloud cover, relative humidity, temperature and wind strength during the day.
