Total				5.4																	

Temperature, humidity, wind and rainfall observations are from Cressy (Brumbys Creek) {station 091375}. Pressure and cloud observations are from Launceston Airport {station 091311}

Launceston Airport is about 23 kilometres northeast of Cressy, and the conditions will often be quite different. The Launceston Airport data are included as a guide only. Some cloud observations are from automated equipment; these are somewhat different to those made by a human observer and may not appear every day.
