How to use this document

This document is divided into two sections. The first section deals with changes to the list of persons named in the *Water Regulations 2008* since 15 July 2009. The second section deals with changes to the list of commercially sensitive sites.

Section 1 begins with Table 1 showing the most recent changes to the names of organisations, which appear in alphabetical order. It then reproduces the list of organisations named in the *Water Regulations 2008* (Table 2). Changes since 15 July 2009 are highlighted and marked by an asterisk. These changes include new names, name changes and changes to Person Categories in which organisations may be listed.

At the end of Section 1 are two tables. The first of these (Table 3) lists in alphabetical order all organisations whose details have changed in the Regulations since 15 July 2009, along with the relevant State/Territory and the categories in which the organisation is listed. It provides information about the changes made and the date of the changes.

Table 4 lists all organisations that have been removed from the Regulations since 15 July 2009, the reason for their removal and the date of the change.

Section 2 begins with a summary of changes made to the list of commercially sensitive sites. It then reproduces the list of commercially sensitive sites (Table 5). Sites that have been changed are highlighted and marked by an asterisk. These changes include updates to station names and station numbers or new sites.

At the end of Section 2 is a list of sites that have been removed from the list of commercially sensitive sites (Table 6).
